Solutions
Services

- **Smart City**

- Storm water Management
- Potable Water Management
- Wastewater management
- Irrigation management
- Pollution Monitoring
- Renewable Energy Management
- EV Charging Infrastructure

- **Industry 4.0**

- MES, SCADA
- DCS, PLC, RTU
- Digital Twin
- IoT based Asset Management
- Effluent Management
- Energy Management
- Resource Optimization

Nearly two decades of market presence gave us Industry exposure ranging from Chemical to Nuclear Power Plant

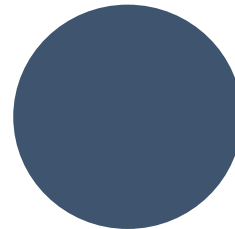

- **System Integration**

- Design Engineering
- Panel Assembly
- Commissioning
- Maintenance & Resource Augmentation

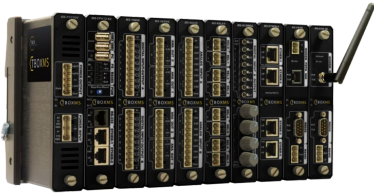

50+ engineers
8000 sq ft state-of-the-art
Infrastructure

- **Engineering**

- Automation Consulting
- Detailed Engineering
- Datasheets & Documentation

Demonstrated capability in engineering and system integration reflects in our customer testimonials.

SIEMENS

PcVue[®] Solutions

SCADA to IIoT and Energy to Environment, we mastered it all! Our two century man years team understands customer need and provide appropriate solutions.
