Rajguru Electronics (I) Pvt. Ltd.

• WE DO IT FOR YOU •

Rajguru Electronics (1) Pvt. Ltd. Is a dynamic business enterprise working with an aim to provide the market with a diverse array of electronic components and equipment. Our name has emerged as one of the highly respected wholesaler/distributors of electronics components. We are leading distributors of RFID NFC reader of Ehuoyan, RG make LCD display, Power modules, Wireless modules, all types of Sensors, SIMCOM GSM/GPRS Modules, Thermal Printer, Programmers, BLDC Motor, ESC Multirotors and Arm development board. Over the years we have gained trust and faith of our customers through delivery of quality products and timely customer service. With increasing demand for Made in India products, we decided to venture into manufacturing of IoT products in India.

We launched our brand ADIY in the year 2020 with focus on manufacturing IoT products. We're dedicated to providing you the best of products, with a focus on dependability, customer service, and amazing quality. We have just started and have a long way to go along with your support. We're thrilled to turn our passion for electronics into Make in India Products. We hope you enjoy our products as much as we enjoy offering them to you. ADIY serves customers all over India.
